

B R A H M  
W O R K S

We are innovators first.

## OUR PURPOSE

We deliver positive impact  
through our Innovation.  
We want to make good  
designs affordable

Brahmworks consists of four pillars

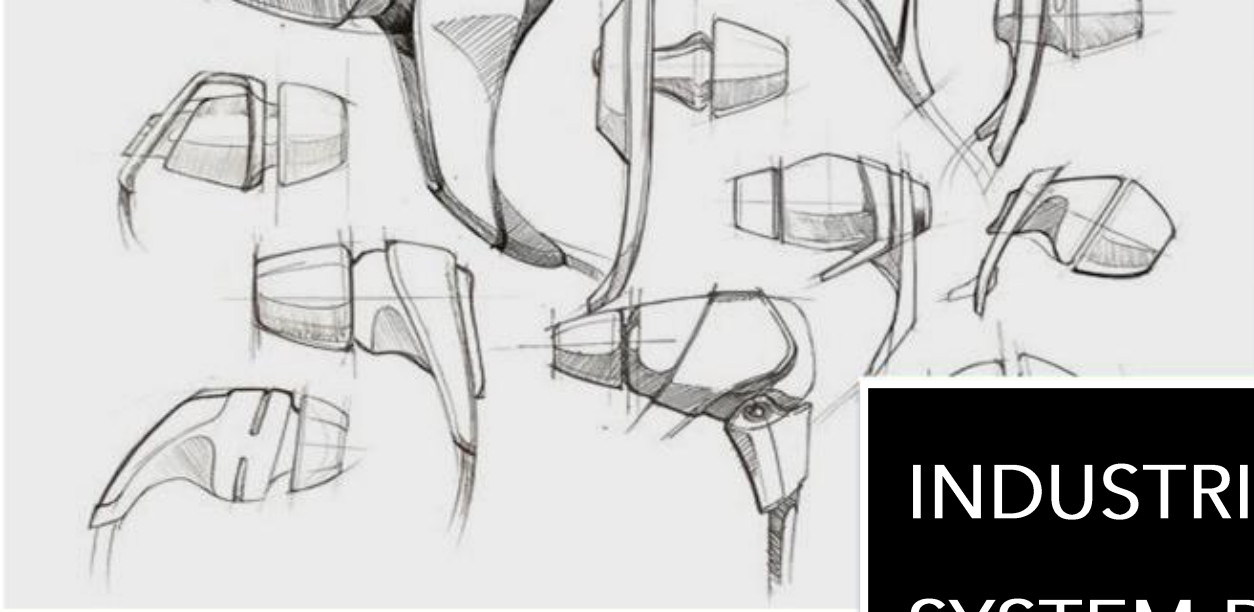

BrahmWorks  
Design Studio

BrahmWorks  
Manufacturing

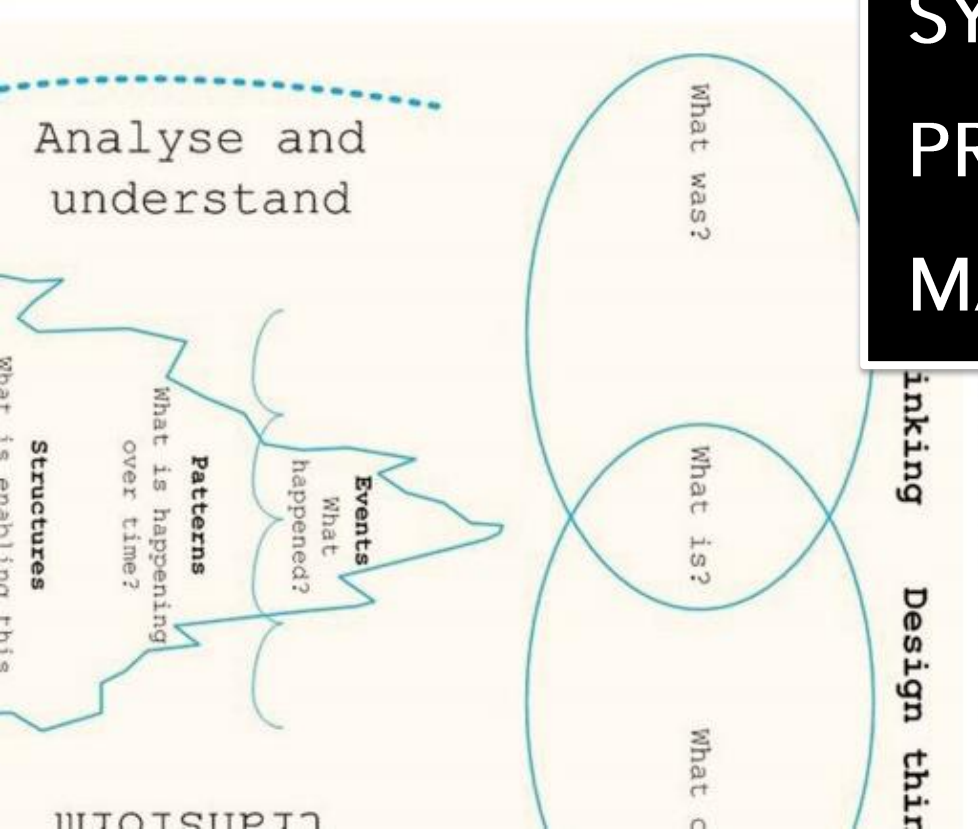

Proto3DP -  
3d printing  
service

Fabtiv -  
Automated  
Manufacturing

INDUSTRIAL DESIGN  
SYSTEM DESIGN  
PROTOTYPING  
MANUFACTURING

# Making The Future of Manufacturing

In **BrahmWorks**  
we invent and build  
products with the  
world's most influential  
companies.

We facilitate a process to jointly and rapidly build  
new products.

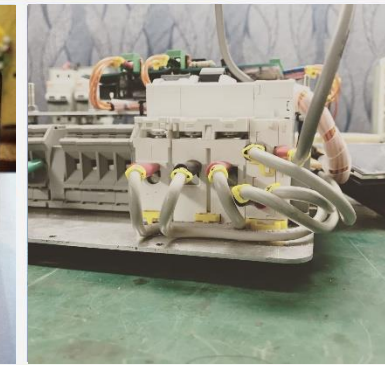

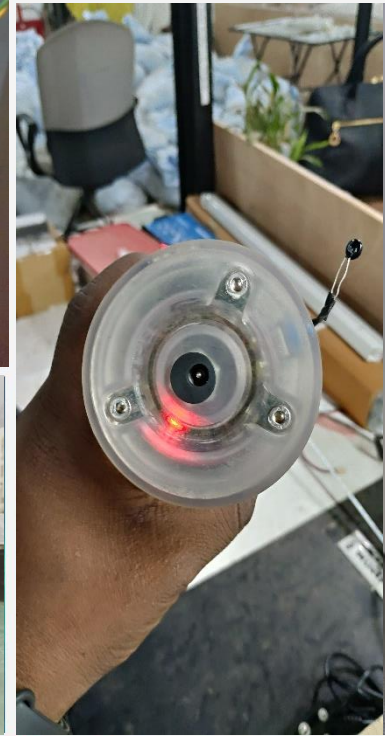

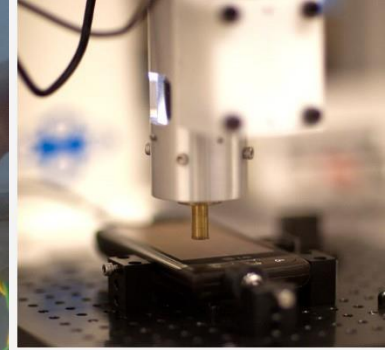

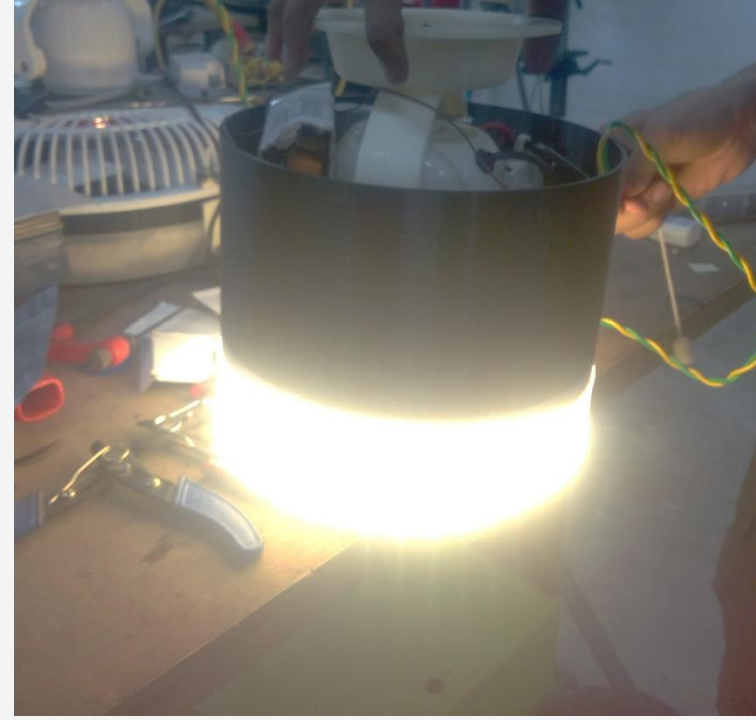

Disruptive innovation has proved to be a powerful way of  
thinking about innovation-driven growth.

# We also build home grown products - based on **our own** ideas

To date we have 5 patents based on own ideas and funded with our own money.

1/3 have been sold, 1/3 didn't work out and 1/3 are still going strong.

# FIRST BUILD

A man in a workshop, wearing a brown jacket and blue jeans, is using a large industrial measuring device. The device has a vertical frame with a horizontal arm and a sensor. The background shows a workshop with shelves and windows.

# We Care

Quality control at BrahmWorks is more than just a final inspection.

Quality is fundamental to the entire design and manufacturing process.

We employ the latest technologies; we audit quality at every operation, and we inspect only with the best of instruments and equipment.
